

July 18, 1933

Mr. B.H. Hanks,
Lone Tree, Wyoming

RE : BEAVER-LONETREE, WYO.

Dear Sir:

I am in receipt of your letter of July 10 asking for the appointment of George Stoll as Water Commissioner on Beaver creek. Such appointment could not be made except by petition signed by the majority of the water users of Beaver creek and only then by and with the consent of both the State Engineer of Wyoming and the Water Commissioner. To do all this would require several weeks and in the final analysis the appointment, if made, would be probably too late for any practical purposes this year.

I suggest, therefore, that you defer action until 1934, then begin early with your petition and I will be glad to do everything possible which will be beneficial to your community and in harmony with the wishes of the Wyoming people.

Yours very truly,

T.H. Humpherys,
STATE ENGINEER
